

## Editorial Notes

We are delighted to present the latest edition of the **Asian Health, Science and Technology Reports (AHSTR)**, **Volume 33(2): April–June 2025**. This issue showcases a collection of diverse interdisciplinary and multidisciplinary research spanning Health Science and Science and Technology.

**Highlights from this issue include:**

- **Clinical Medicine:** "The Prospective Randomized Controlled Study Comparing the Analgesic Effects and Quadriceps Strength between Femoral Nerve Block and PENG Block in Patients Undergoing Hip Fracture Surgery"
- **Computer Science and Information Technology:** "Development of an Application for Rice Cultivation: Weather Forecasting System and Crop Variety Selection"

AHSTR serves as a platform for researchers, holding approvals from both the **Thai-Journal Citation Index (TCI Tier 1)** and the **ASEAN Citation Index**. We warmly invite and encourage your contributions to our vibrant academic community.

**We encourage you to:**

- **Explore our articles:** Delve into novel research across Health Science, Science, and Technology.
- **Submit your research:** Share your valuable insights with a global audience.
- **Contact us:** We are available to assist you with any questions or inquiries.

We deeply appreciate your continued support and participation in advancing knowledge.
